

“God Created Creeping Animals” Take Home Page

Big Idea: All of God’s creatures fulfill God’s purposes in God’s wisdom

Memory Verse Review: “For since the creation of the world God’s invisible qualities—His eternal power and divine nature—have been clearly seen, being understood from what has been made, so that men are without excuse.”

At Home Activity: Observe the Ants

Read Proverbs 6:6-8 and/or Proverbs 30:24-25. What can we learn from ants? If possible observe an ant colony. Consider checking out a book from the library about ants. How do ants know how to build, organize, and maintain a colony? Who created such an amazing design and intelligence for these little insects? God did!

At Home Activity: Grubs

Purchase some grubs (from a pet or bait store). Let your child observe them and draw a simple picture of their grubs. Then fill a plastic cup with about 2 inches of cornmeal and a small apple slice. Place 2-3 grubs in the cup. Cover the cups with plastic wrap and punch a few air holds in the top. Set the cups in a place they won’t be disturbed. In a week or so pour out the cups onto a paper plate. What has happened to your grubs? Have the children draw a picture. Scoop the contents back into the cup and recover (and add air holes). Check back on your grubs every week. Over time, the grubs will change into brown beetles. You just got to observe metamorphosis! What an amazing process that God designed!
